

ACCESSIBLE SKIES AT A GLANCE

About Canadian Abilities Foundation (CAF)

CAF envisions a society that is inclusive and universally accessible, aiming to empower people with disabilities and advocate for removing barriers to support all Canadians.

Core Partners

Mission: To improve the travel experience for passengers with cognitive disabilities & their support networks by addressing airport challenges & advocating for better accessibility standards.

Vision: To create inclusive & welcoming airport environments that empower passengers with cognitive disabilities & their support networks, to ensure navigation with confidence, dignity, & ease.

Our Advisory Partners

Participating Airports

 In 2022, 1 in 4 Canadians (8M people) reported having a disability.

 From 2017 to 2022, cognitive disabilities all saw large increases.

 The disability rate rises with age contributing to disability increases.

 By 2050, 1M+ care partners for people with dementia in Canada.

 Every day, more than 350 people in Canada will develop dementia.

Objectives

-  Conduct Research
-  Engage Travellers & Support Networks
-  Establish Collaboration Partners
-  Provide Recommendations
-  Share Findings & Resources With Airports
